Frank E. Langley, Publisher.

Entered at the postoffice at Barre as second class matter.

WEDNESDAY, AUGUST 9, 1905.

The average daily circulation of the Barre Daily Times for the week ending Saturday was

**3,430**

copies, the largest paid circulation of any daily paper in this section.

Barre presented the appearance of the "deserted village" today.

Strange as it may seem the Barre granite industry is turning Barre-ward.

If there is any consolation in the burning of the million-dollar St. Thomas church in New York it is that the attendants are in financial condition to rebuild. So the blow will not fall so heavily.

One would know that the delegates to the American Federation of Labor convention are working men from the way they are getting down to the work of the convention. There is no time wasted.

Williamstown also will welcome a large number of old residents tomorrow, on the occasion of the re-dedication of the Congregational church. It will be a sort of Old Home Week for the neighboring city.

The Denver minister who declared that Theodore Roosevelt is "the one man of the world who matches Jesus Christ in seriousness of purpose, in purity of life" poured a libation of gush that Roosevelt's best friends cannot swallow.

It is to be hoped that Governors Verdaman of Mississippi and Blanchard of Louisiana will have established friendly relations before they come to Vermont next month as the guests of the Caledonia County Fair association. For the comity of the party of Southern governors would be greatly put out if they continue to fight over yellow fever when they reach Vermont.

Chance for a strict investigation in Albany. But the blame for the collapse of the large department store building will never be fastened down and proper punishment for the criminal neglect will never be meted out. Too many superficial investigations of terrible accidents have been made to give assurance that there will be anything but a superficial investigation in this case.

The plum of the Turkish government offices is the admiralty, which is worth \$16,800 a year, and the present holder is stated to have amassed a fortune of \$2,400,000. The minister of foreign affairs has \$2,800, and finance come next with \$1,000 lower.

## JINGLES AND JESTS.

A Record Breaker.

It is said that the greatest and quickest permanent advertising success on record is that of Cascarets, Candy Cathartic, which have been persistently advertised in every way, but chiefly in newspapers for about six years. In that time the sale of Cascarets has grown from nothing to over one million boxes a month. This wonderful record is the result of great merit successfully made known. Those who tried Cascarets as a direct result of advertising, were pleased and recommended the article to their friends, until its fame was spread to become universal.

The Old Story Again.

Boundless Love.

"How much do you love me?"  
It was a thrilling moment for Bertram, but gazing long into the passionate eyes of the beautiful creature who spoke, he did not quail.  
"I love you so much," he replied "that in view of my own short comings, in view of the uncertainty of life my income, which ought to be double but isn't, of the increased cost of living, of the terrible dressmakers' bill I read about in the papers—indeed to make it short, of all the financial perils of modern life, I love you, darling, altogether too much to marry you."  
Then it was that the proud beauty unable to restrain herself, threw herself bodily into his arms.  
"Darling," she murmured, "you have stood the test. I am yours for the next three weeks.—Puck.

## SAFETY.

The careless man is likely to keep his valuable papers, insurance policies, deeds and notes stored in his desk or in the bureau drawer, where they are not protected in case of fire and where they may be easily mislaid or overlooked.

The careful man avoids risk and worry by renting a

in which he places all his valuable papers.

If you are going away for the summer be on the safe side and rent one of our Safety Deposit Boxes before you leave.

If you are not going away you need protection from fire and loss. In either case you should have one of our Boxes.

**ONE CENT A DAY** will pay the rent. Better DO IT NOW.

## SPY ON TOM TAGGART.

Gov. Haly Stops Gambling at French Lick Springs.

Indianapolis, Ind., Aug. 8.—Gov. Haly has responded to complaints from citizens of Orange county against gambling at French Lick Springs, Tom Taggart's famous resort, and at West Baden, one mile away. The casino at French Lick has been closed.

For a month representatives of the Governor have been at French Lick and West Baden, nominally as guests, but really as spies or detectives. As soon their mission became known the casino, the largest gambling hall in the West was closed.

When seen Monday evening Gov. Haly refused to discuss the matter. It is known, however, that the evidence secured will be submitted to the grand jury of Orange county.

## KING OSCAR TO REST AGAIN.

Will Hand Over Throne to the Crown Prince.

Stockholm, Sweden, Aug. 9.—King Oscar has issued a proclamation stating that he intends to hand the Government over to the Crown Prince Gustavus Adolphus, in order to seek rest and strength. He has done this before. With reference to a Berlin telegram stating that King Oscar had reversed his opinion and would agree to have a young prince of the house of Bernadotte ascend the Norwegian throne, it is semi-officially stated that the King holds to his declaration of June 29, in which he declined to accede to that proposition.

## MAYOR UNDER ARREST.

Bliss Accused of Taking City of Pensacola's Dynamite.

Pensacola, Fla., Aug. 9.—Mayor Charles U. Bliss was placed under arrest here yesterday, charged with having in his possession considerable dynamite which the city had purchased for the purpose of draining a pond in the western part of the city.

The dynamite was stored in a house near where the pond is located. John Burns, former street superintendent, made the affidavit.

Getting Rid of United States Coin.

The uprising of Canadian business men to expel American coins from the circulation of the Dominion was largely directed at first the "cartwheel" dollar, which seems to be much more common there than here. Now the movement comprehends all United States coins. Our money is no more legal tender in Canada than Canadian money is here, but along the border it has been tolerated on account of popular convenience. Similarly in upper New Hampshire, in Vermont and in some districts of Maine one comes across Canadian silver and bills in circulation and storekeepers make accumulations of both to meet the local demands. There is a French Canadian element more or less transient to be catered to, and in Woodville and some other places there are shops display signs in English and French.

But Canada, being smaller, cannot afford continued toleration of a practice that makes little impression in the United States. To get the American coins out once and for all, a new Canadian coinage of nickel has been proposed. Some of the advocates of this suggestion have even urged nickel quarters. Judging from Canadian papers, this is going too far to meet the approval of business men who, while admitting the convenience of nickels for small coins, believe that the difference in intrinsic value between the two metals must limit its usage in coinage.

Canadians fear the general employment of nickel would have a debasing effect on the whole currency. Possibly there would not be so much of an organized effort in behalf of nickel coinage if it were not for the fact that Sudbury, Ont., is the only place in North America where the metal is produced. There may be an artfully designed ton Transcript.

## GLEANINGS AND GOSSIP.

It is said that the shah of Persia has \$35,000,000 worth of decorations and jewels.

Aden is the only fortified point between Egypt and Bombay, and is regarded as an outpost of the Indian empire.

On his recent visit to Paris the shah of Persia was fanned, night and day, by relays of perspiring attendants.

The earliest known mention of shaving is in the Bible (Genesis xlii: 14): "And he (Joseph) shaved himself and came before Pharaoh." Shaving the beard was introduced by the Romans about 300 B. C.

Dr. E. A. Mears announces his discovery of several new species of birds on the summit of Mount Aconcagua, in the Philippine group. The animal life on this peak differs not only from that of the lowlands, but from that of the other highlands of the archipelago.

The duke of Abruzzi is fearless. He has been shot over a hedge while motoring; he has listened while the ice pack cracked his ship's ribs in at Prince Rudolph island; and escaped with frost-bitten fingers; he has surveyed the world from his balloon, and attained points on the Alps before unexplored.

The English language, according to a German statistician who has made a study of the comparative wealth of languages, heads the list with the enormous vocabulary of 200,000 words; German comes next, with 80,000 words; then Italian, with 75,000; French, 30,000; Turkish, 22,500; and Spanish, 20,000.

A small boy was seen standing near the geyser formed by a leak in a penstock at Orono, Me., the other day. As the water fell the boy seemed to grab something from the shower and deposit it in his hat. The hat appeared to be full of live snakes. In investigation showed that he was "catching little eels for the cat."

The cotton handkerchiefs provided for French soldiers have printed upon them a number of sanitary precepts to be observed on the march and during a campaign, and are further decorated with pictures of officers of all grades, so that a French private can tell at a glance to what grade any officer he may see belongs.

## BAKERIES SHUT.

Jews of East Side, New York, Face Starvation.

New York, Aug. 9.—The striking "kosher" bakers passed a resolution at their noon meeting at 15 Clinton street yesterday to march 1,500 strong on the mayor's office tomorrow at noon and ask for official intervention in their strike. They will be followed by thousands of orthodox Hebrews, who are suffering an actual bread famine.

The entire East side and the Jewish quarters of Harlem and Williamsburg faced starvation yesterday, with every "kosher" bakery shut up and food of any other sort forbidden by their religion.

In the few restaurants and groceries where bread could be bought the price had gone up to 20 cents for the three-pound loaf that usually sells for 12 cents, and that had risen to 15 cents yesterday. Rolls were selling at prohibitive prices for the poor, having advanced from 7 cents a dozen to 15 cents.

All the "kosher" bakers of Williamsburg went out on strike, and 200 of them marched in a body across the Williamsburg bridge to the meeting place of the Manhattan bakers in Clinton street. The Brooklyn bakers had met in Williamsburg and voted to join the strike. A great mob followed them as they marched to Manhattan.

## FOR STEALING A HORSE.

Police of Keene, N. H., Arrest Man They Believe Is One of a Gang.

Keene, N. H., Aug. 9.—A man whom the police believe is one of a gang who are wanted in various parts of Massachusetts and Vermont, was arrested by local officers here yesterday on the charge of stealing a horse from C. R. Holden of Bellows Falls, Vt. The man first gave the name of James Morgan, but later changed it to James Sullivan. A man of the latter name is wanted in Springfield, Mass., police for horse-stealing. The prisoner was observed by the police when he drove into the city early in the day, and when he was unable to give a satisfactory account of himself or how he came to have the horse in his possession he was locked up. He was taken to Bellows Falls in the afternoon.

## CHICAGO TRACTION MERGER.

Consolidation Plans Are to be Considered.

Chicago, Aug. 9.—Representatives of the controlling financial interests in the various local street car companies will meet in New York within a couple of days for the purpose of considering the plans for a merger of the various lines upon a one-city, one-company, one-system and one-fare basis, and also to go over the legal and rehabilitation propositions which the representatives of the various street car companies of Chicago have had under discussion. A syndicate is expected to furnish the money necessary for the rehabilitation of the lines.

## BOYCOTT IN BENGAL.

Movement Against the Use of European Goods.

Calcutta, Aug. 9.—A movement to boycott European goods is spreading rapidly in Bengal, and is causing anxiety to merchants. The considerable reason for the movement is a desire to indicate that Bengali sentiment is offended at the government's proposal to partition the Presidency. It is significant, however, that Chinamen were present at the meeting, which passed the boycott resolution.

## DEMAND OLD RATES.

Royal Arcanum of Upper New York Denounces Grand Council Action.

Syracuse, N. Y., Aug. 9.—Representatives of eighty-seven up-state councils of the Royal Arcanum assembled in this city yesterday afternoon and by resolution denounced the action of the grand council in raising dues as "wholly unnecessary, inequitable, illegal and uncalled for." Restoration of the old rates was demanded.

## FAMOUS GUESTS AT PROCTOR.

Vermont Senator Entertains Speaker Cannon and Congressional Party.

Proctor, Aug. 9.—Congressman D. J. Foster, of Vermont, James S. Sherman, and L. N. Littaner, of New York, J. C. Sibley, of Pennsylvania, Senator James H. Hemenway, of Indiana, and Speaker Joseph G. Cannon, of Illinois, were guests yesterday of Senator Proctor at his home here. The visit has no political significance.
